Resources

Tools for Change

Most municipalities have experienced significant change since their incorporation, including urbanization, population, economic and changes in citizens' expectations.

For some municipalities, change has meant continued growth and prosperity. For others, change has meant new approaches are necessary for long-term sustainability.

To effectively manage change, municipalities are seeking new approaches to both governance and service delivery.

To view the submissions/winners for the AMM Annual Municipal Excellence Award, click [here](#)

Step 1. Municipal Health Checklist

A self-analysis tool that enables you to gauge your municipality's strengths and understand its challenges.

Step 2. Municipal Approaches to Managing Change, a tool that combines the Health Checklist results with your municipality's situation to assist in selecting the best approach to managing change and meeting challenges.

Better Municipal Business practices 

Service Sharing 

Revenue (Tax) Sharing 

Municipal Restructuring 

Step 3. Successful Municipal Practices: Responding to New Challenges, fact sheets that highlight exciting municipal innovations.

Submission Form
