

## First Nations - Municipal Community Infrastructure Partnership Program

### Service Agreement Templates

CIPP has developed a series of service agreement templates for the following services: water and sewer; fire protection; solid waste; animal control; recreation; transit; and, comprehensive service agreements.

These templates are meant to act as guides for organizing a service agreement and are not legal documents. Clauses will need to be altered, added and deleted to ensure that the agreement is best suited to fit the unique needs of your community.
